

## Tweenhills Farm & Stud - Saturday 24<sup>th</sup> September

Week 3 at Tweenhills was a very busy week again, with a mix of helping in the office and observing things outside.

I spent Monday cross checking all the covering records to ensure we were 150% accurate with our data before registering the covers online with Weatherbys.

Tuesday I got stuck in with the yard staff when the vet was in to check the mares for pregnancy. Whilst the mares were in, they were given EHV and/or flu vaccines as required.

On Wednesday I got to see the yearlings that were going to Tattersalls paraded for David, where he pointed out confirmation points to me which was fascinating and a really helpful insight. I also checked Makfi invoice details on a spreadsheet, which will be sent out to owners to show the care taken. All these kind of details must be correct when involved with running a stud.

Thursday and Friday were spent registering the covering certificates on the Weatherby's website, so I'm hoping I haven't made any mistakes! The week was finished off with the 'fine's party' where I did get the punishment of a teaspoon of tobasco for having let go of the yearling on my first walk the previous week!
